PALILUS

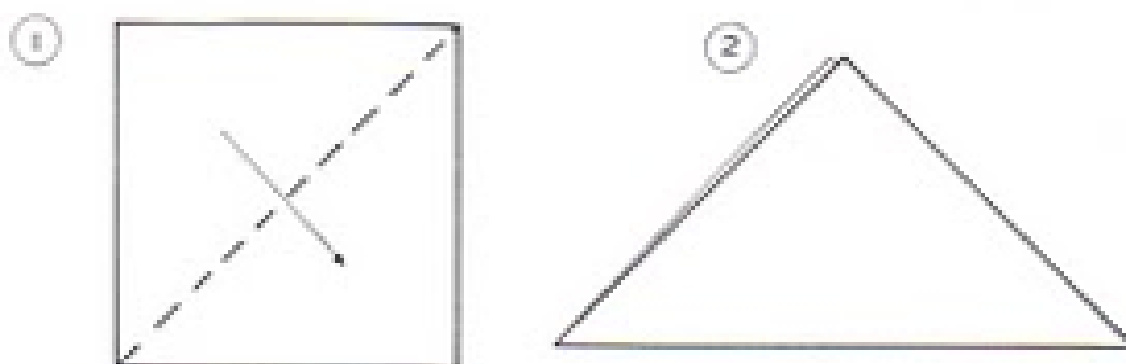

A PRAIA

O SORVETE E A PIPA

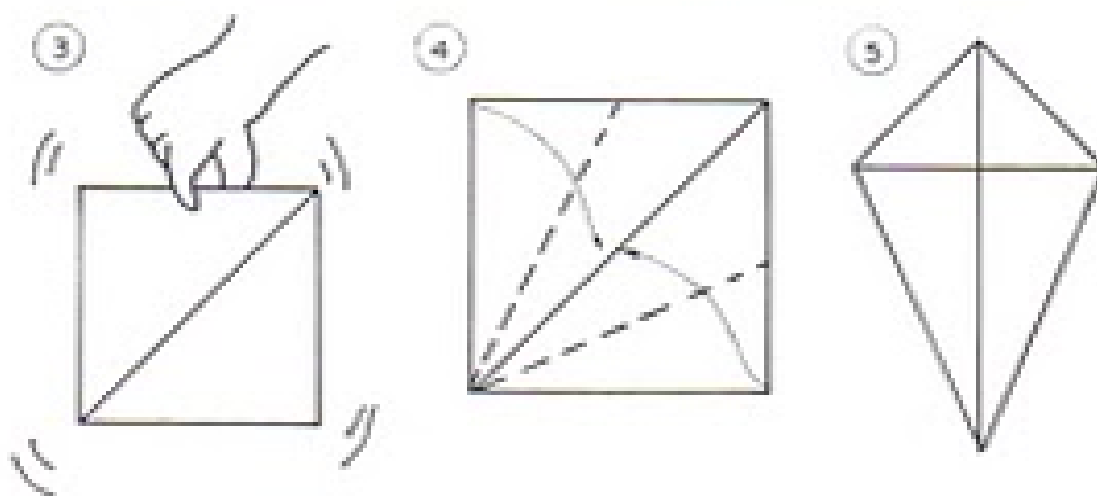

Use um papel quadrado medindo 10 x 10 cm.

Acompanhe a história e preste atenção aos movimentos correspondentes.

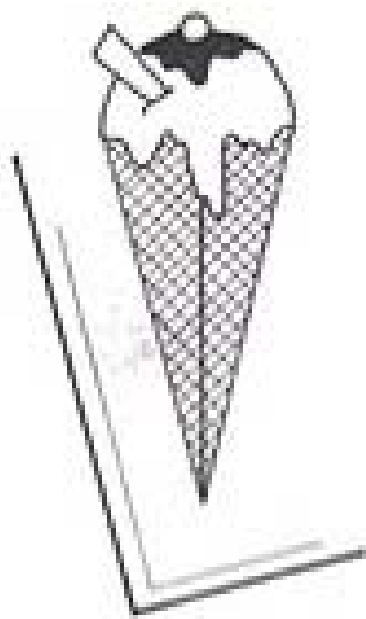

Peguei um papel quadrado, dobrei-o ao meio, transformando-o em um chapéu triangular.

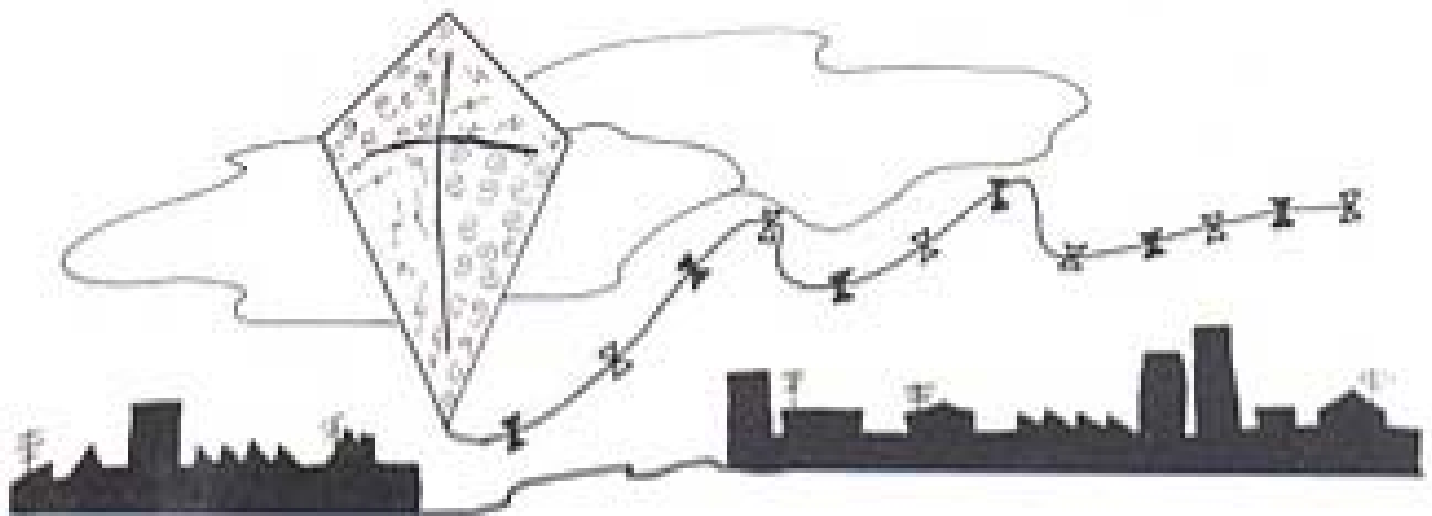

Estava muito calor e eu usei o papel para me abanar. Fui tomar sorvete de casquinha.

Para o sorvete ficar mais gostoso, a parte de cima dele pode ser recortada. Você também pode fazer uma colagem com algodão e papel colorido.

Quando virei o sorvete ele se transformou em uma pipa.
Fui seguindo a pipa que rodopiava no ar, até que cheguei a uma praia.

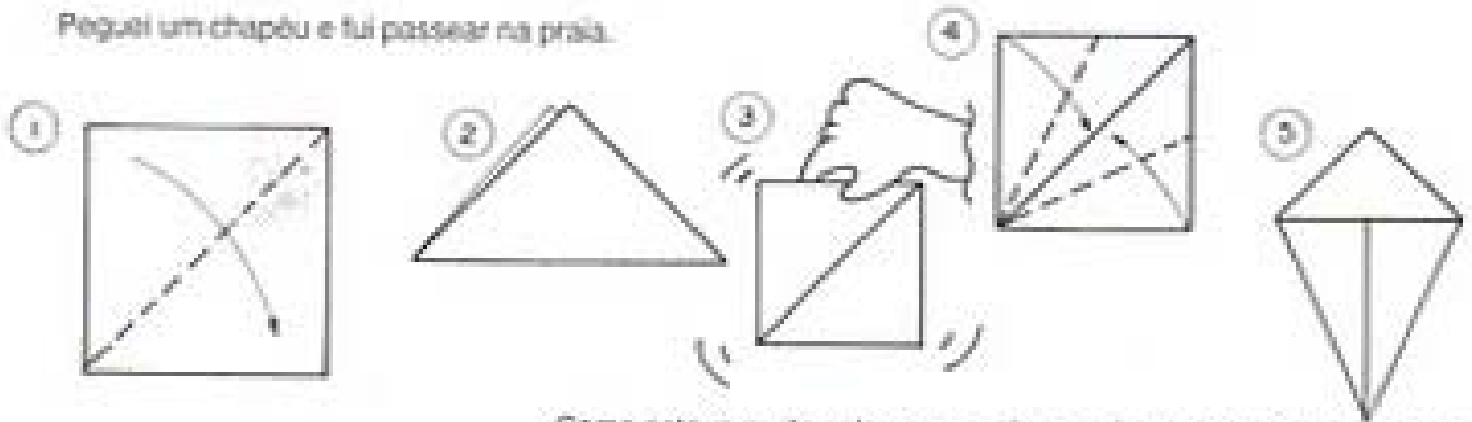

E que bela vista eu encontrei:

- alguns barquinhos navegando
- um caranguejo solitário andando sobre a areia
- crianças brincando de veleiro e caiaque
- muitos peixinhos coloridos
- uma gaivota voando perto do mar
- uma baleia e um tubarão
- uma tartaruga marinha pondo seus ovos na areia
- e os turistas se divertindo debaixo do guarda-sol.

O BARCO

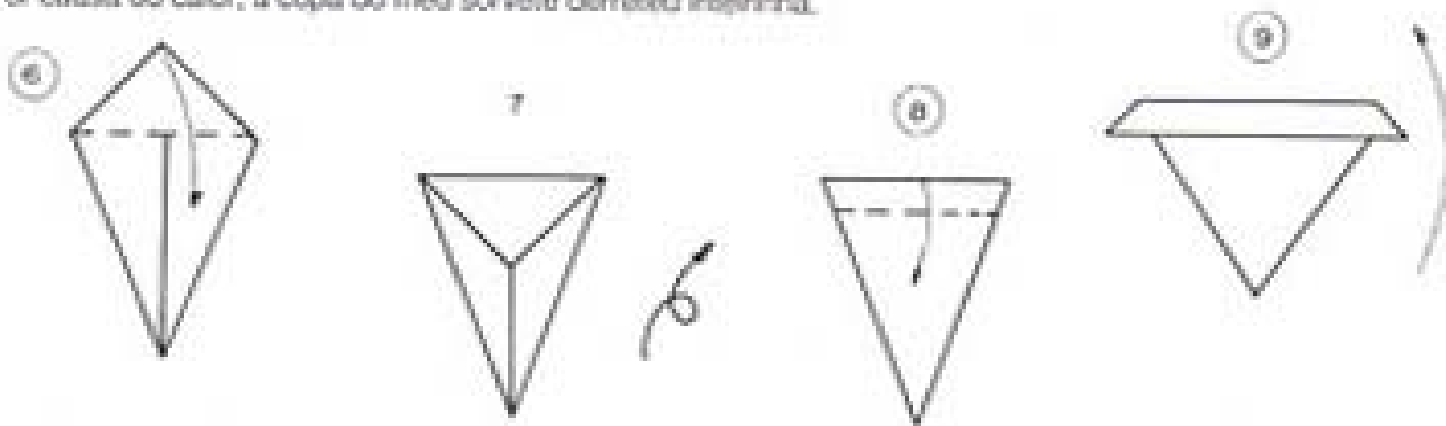

Use um papel quadrado medindo 10 x 10 cm.

Peguei um chapéu e fui passear na praia.

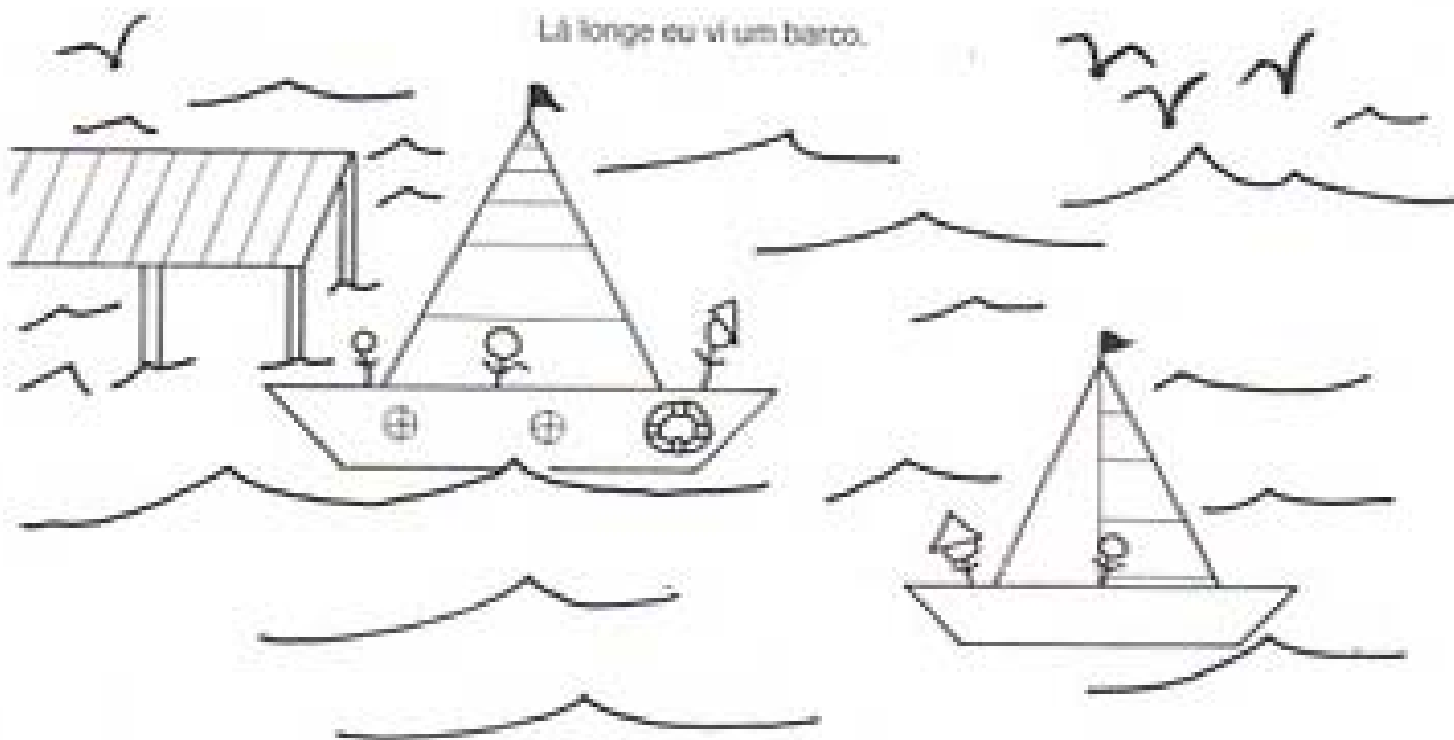

Como estava muito calor, comecei a me abanar e fui tomar um sorvete.

Por causa do calor, a copa do meu sorvete derreteu injirinha.

Eu virei o sorvete, mas ele continuou derretendo.

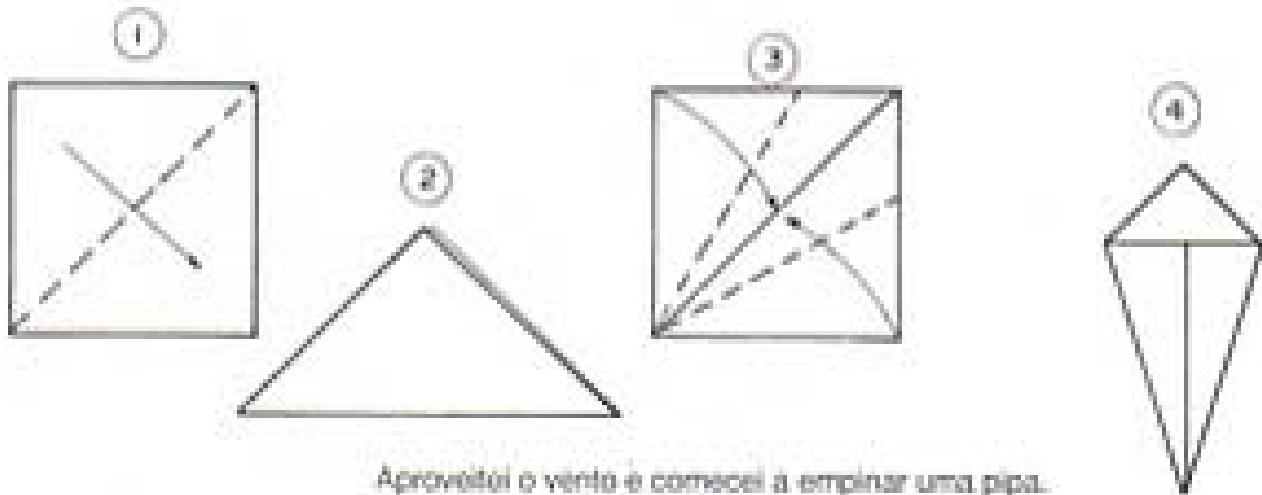

Lá longe eu vi um barco.

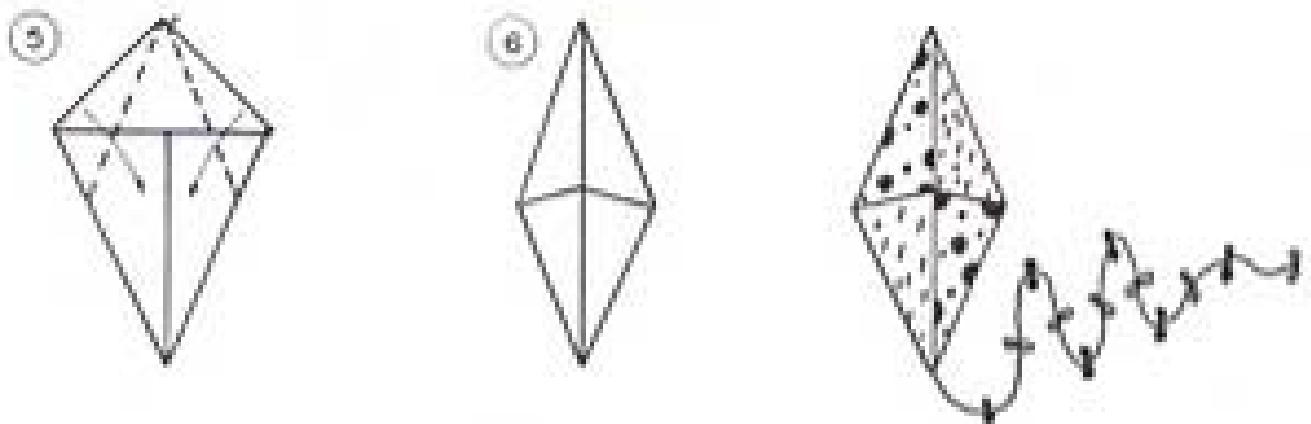

O CARANGUEJO

Use dois quadrados de papel espelho medindo 10 x 10 cm.
Dobre os dois quadrados da mesma maneira, seguindo as instruções de 1 a 8.

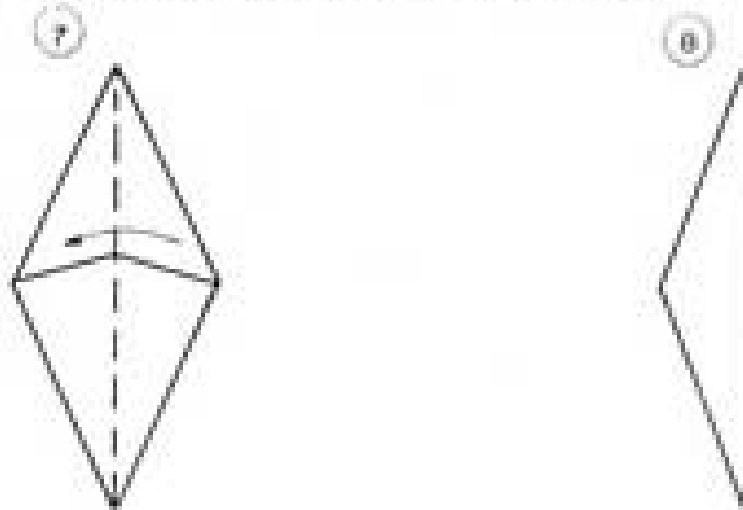

Peguei o meu chapéu e fui tomar sorvete na praia.

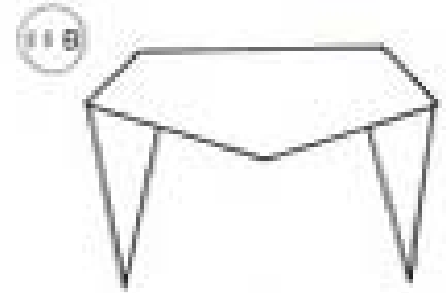

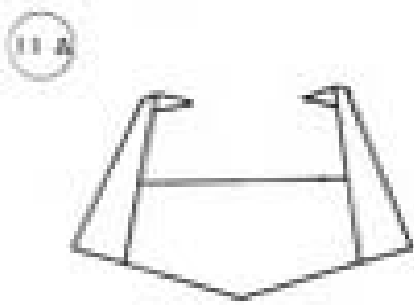

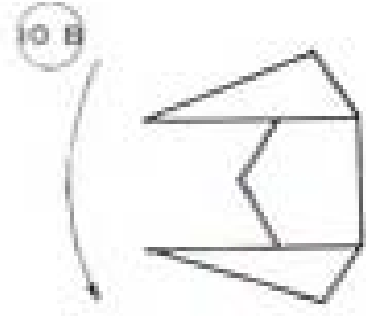

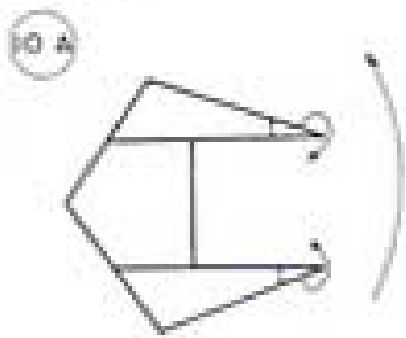

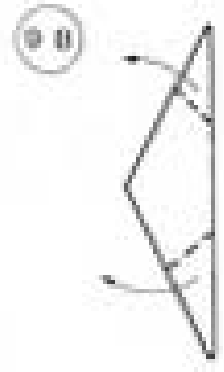

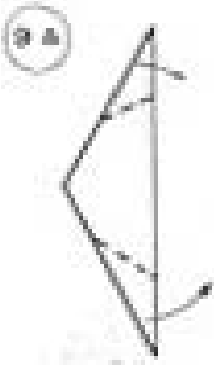

Aproveitei o vento e comecei a empinar uma pipa.

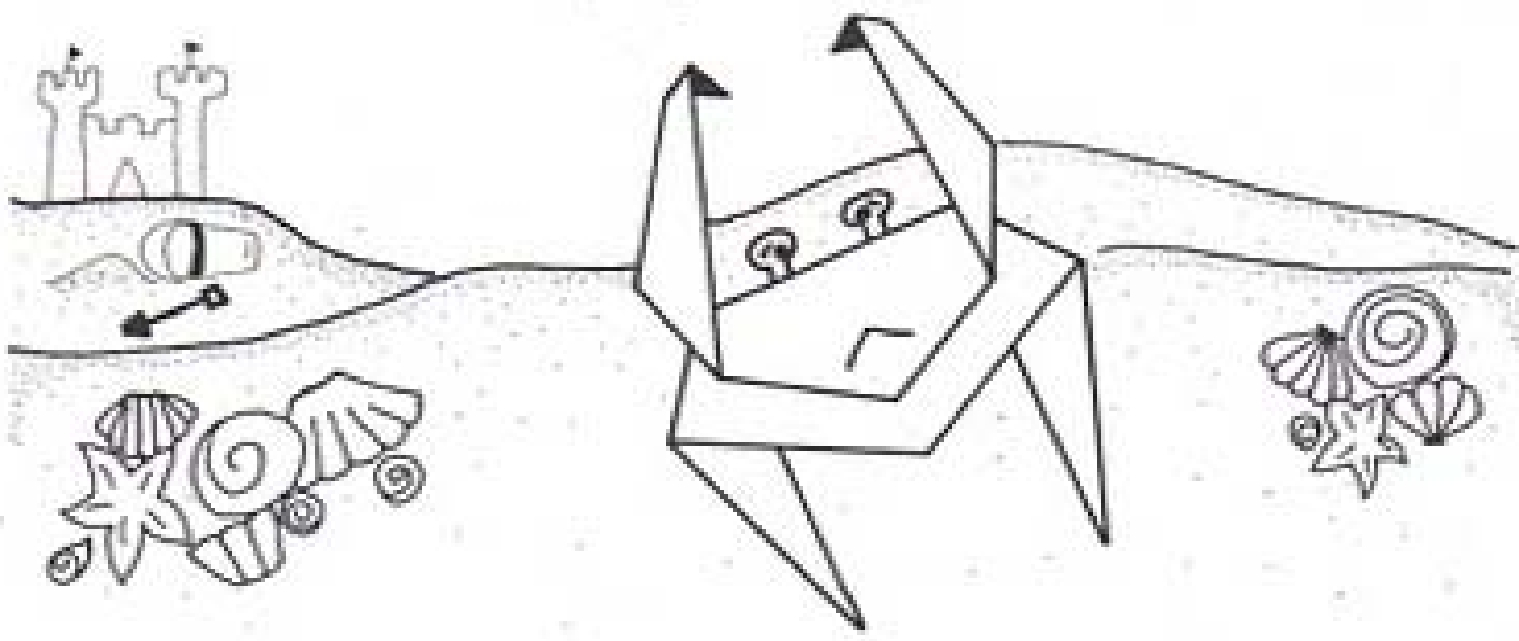

Ela voou e se enroscou em uma árvore. Eu puxei a linha e a pipa dobrou ao meio.

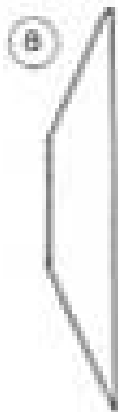

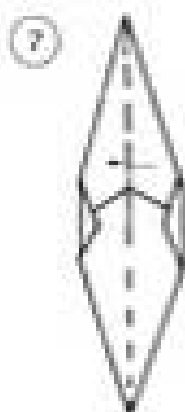

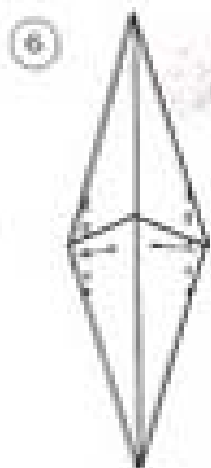

Coloque a figura A sobre a figura B.

O VELEIRO E O CAIAQUE

Use dois quadrados de papel espelho medindo 10 x 10 cm.

Em um dos quadrados, repita os passos de 1 a 6 do caranguejo.

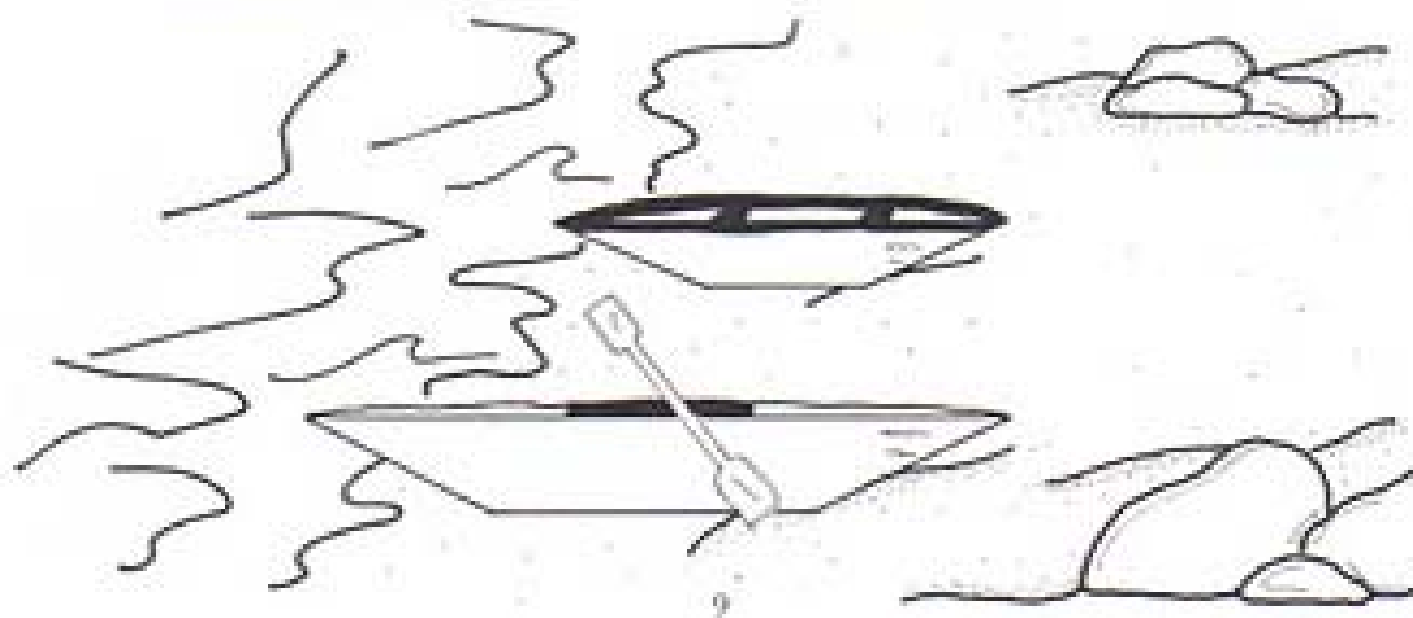

Faça um chapéu no segundo quadrado.

Junte as figuras para formar o veleiro.

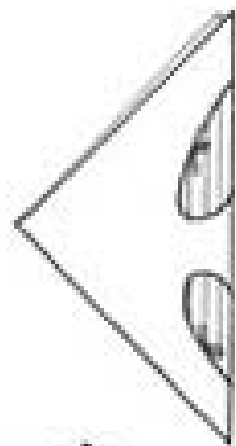

Use apenas a parte de baixo do veleiro para fazer um caiaque ou uma canoa.

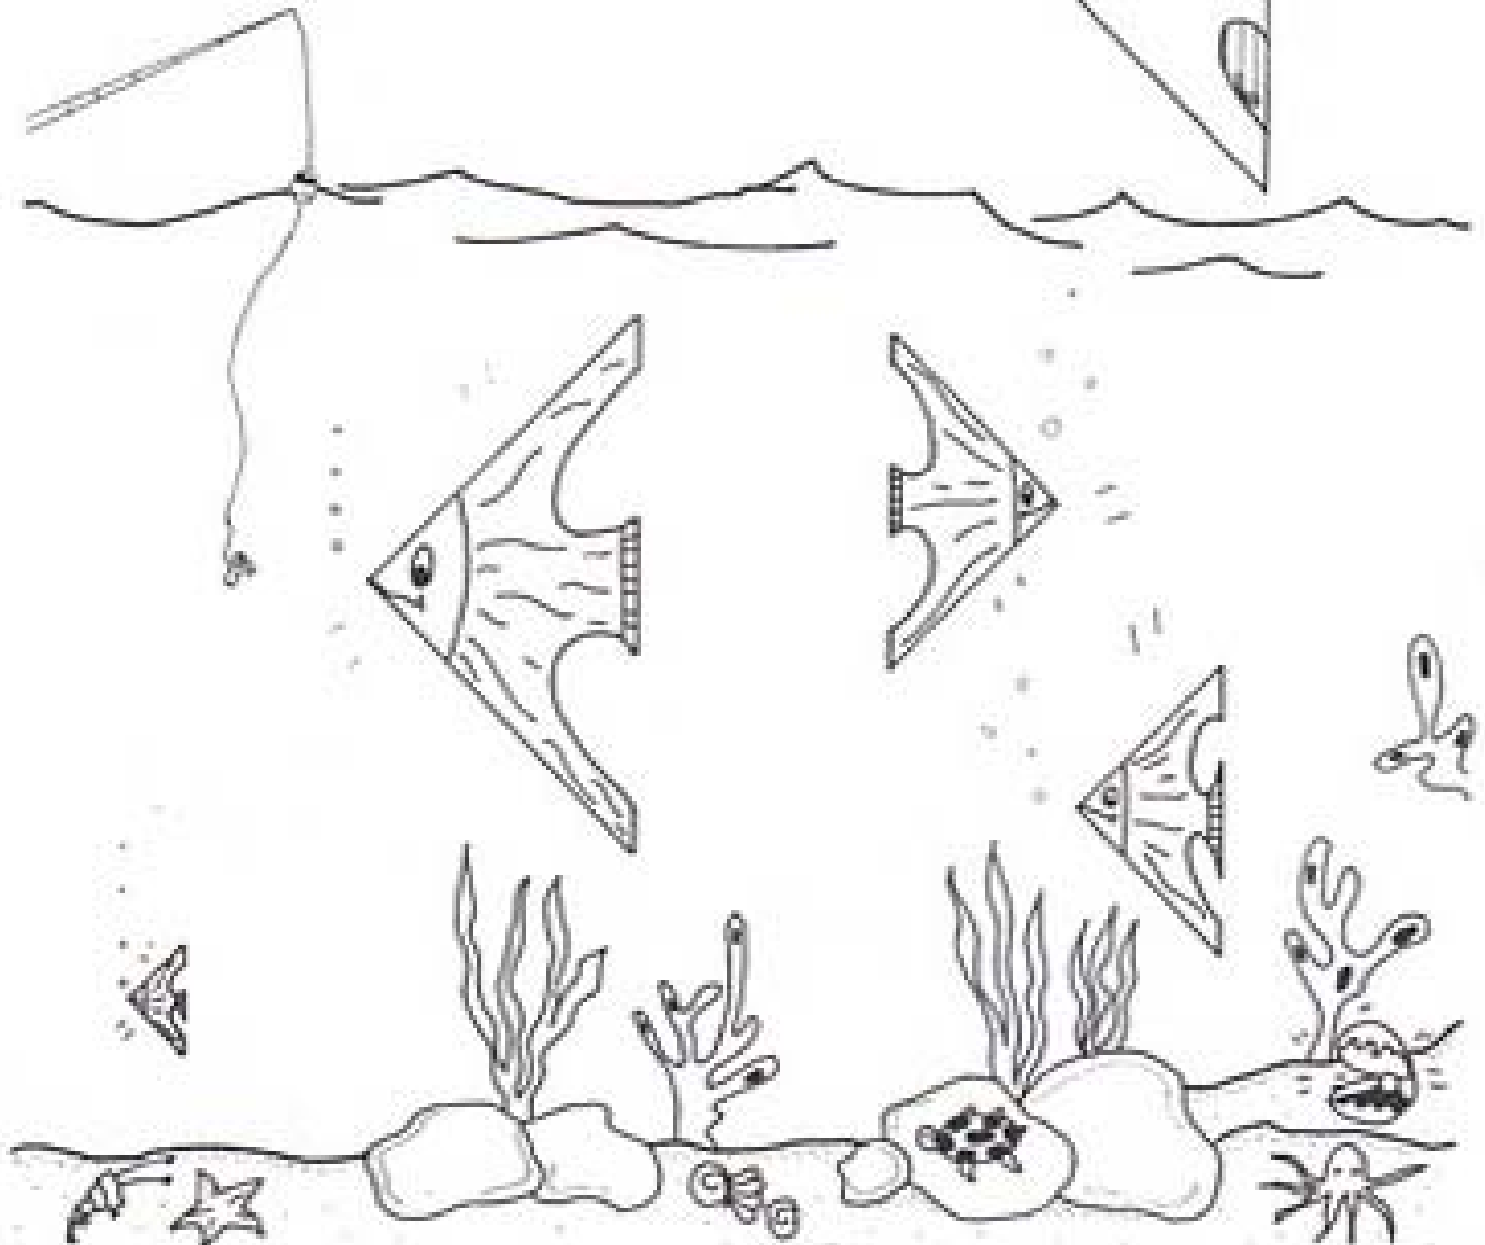

O PEIXINHO

Use um quadrado de papel medindo 10 x 10 cm.
Você pode fazer peixinhos coloridos usando retalhos
de papel de presente ou folhas de revistas.

Corte nas partes indicadas.

A GAIVOTA QUE VOA

Use um quadrado de papel espelho medindo 16 x 16 cm.

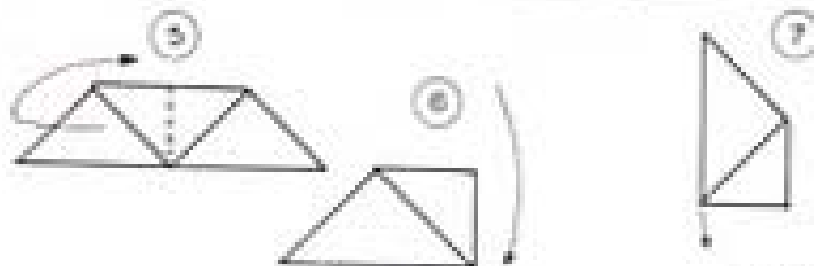

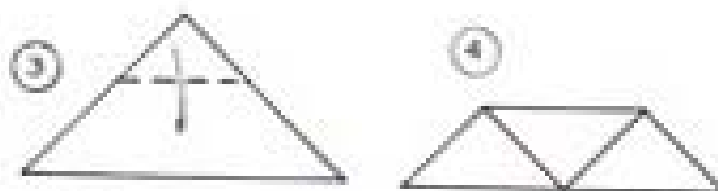

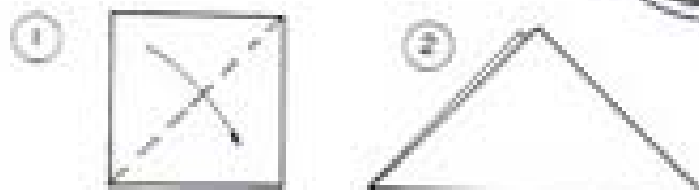

Peguei o chapéu e fui passear na praia.

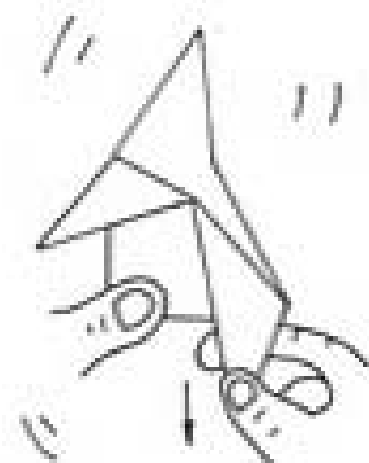

O vento demorou e meu chapéu no chão e ele ficou com a ponta amassada.

Dobrei o chapéu ao meio e acenei para uma gaivota que passava.

Puxe

Para fazer a gaivota voar, puxe a aba indicada para baixo. Enquanto isso, segure com firmeza a frente da figura.

Segure aqui

Puxe

O PEIXE

Use um quadrado de papel espelho medindo 16 x 16 cm.

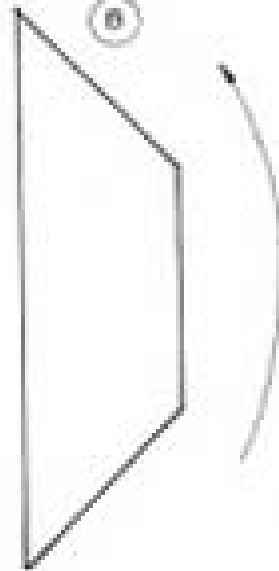

Repita os passos de 1 a 7 da gaivota que voa e siga as instruções a seguir.

7

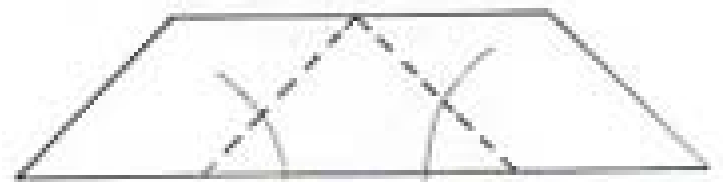

Abra a figura.

8

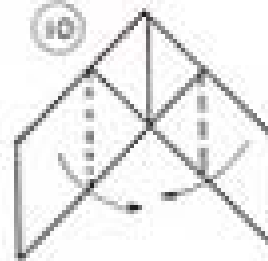

9

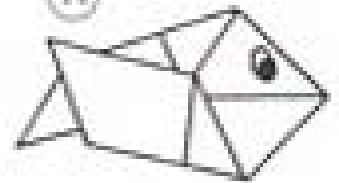

Dobre as duas abas para baixo.

10

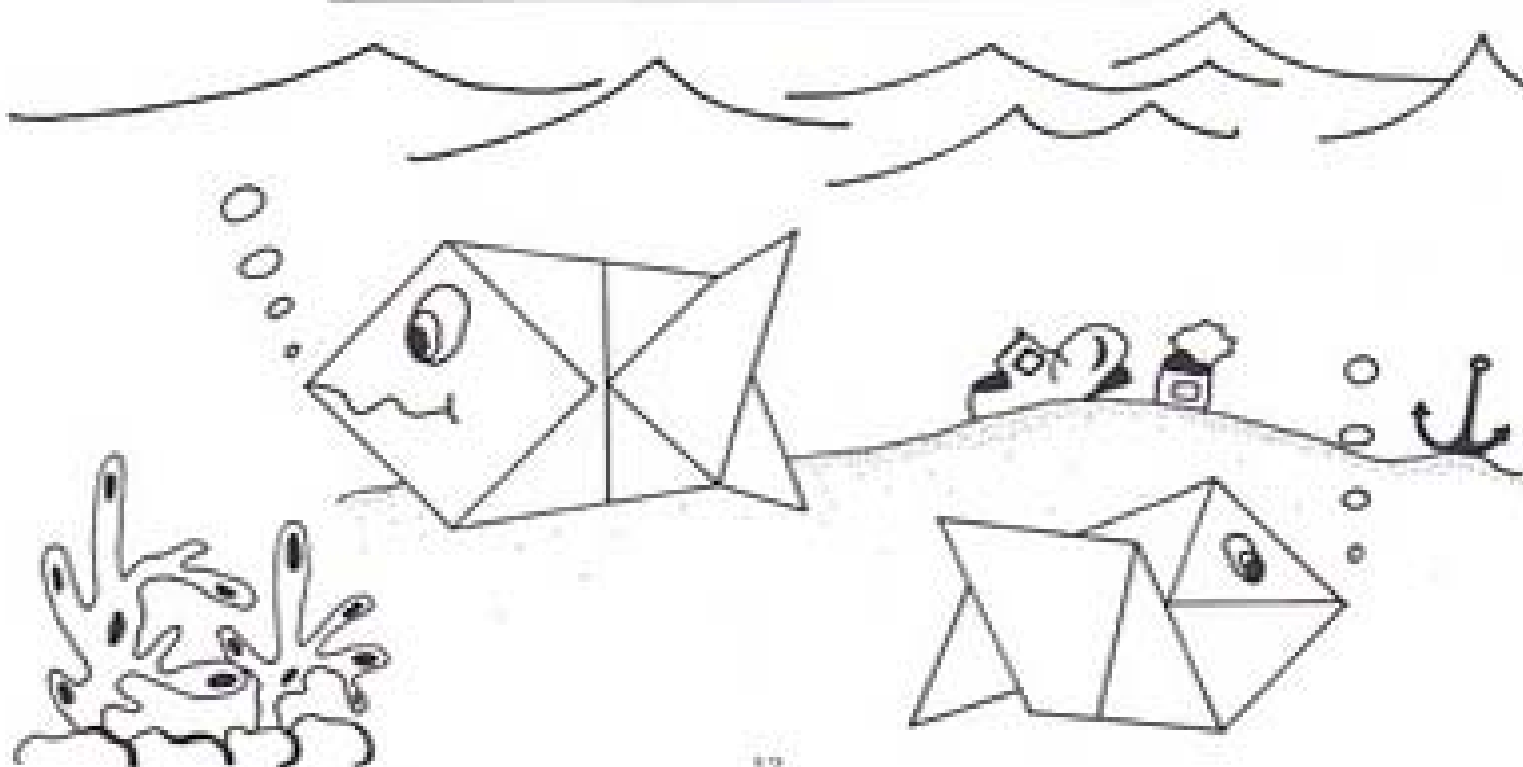

11

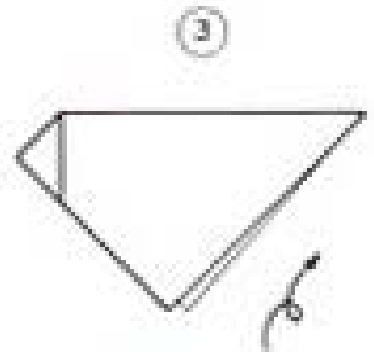

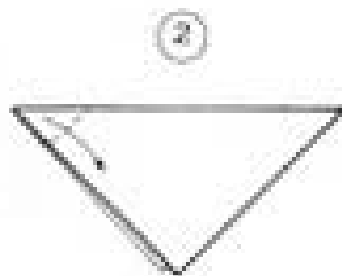

Dobre nas linhas indicadas, cruzando as abas. Pinte o olho do peixe.

Você pode utilizar os dois lados da figura para fazer o peixe, obtendo assim dois modelos diferentes.

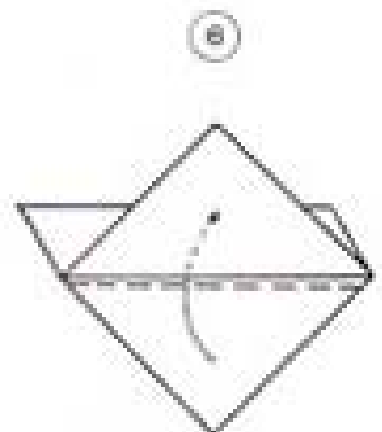

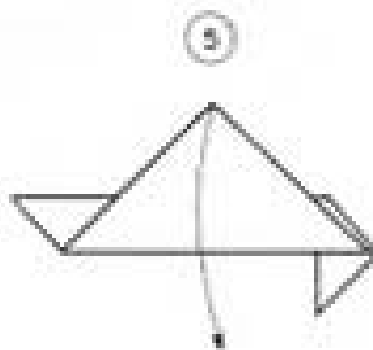

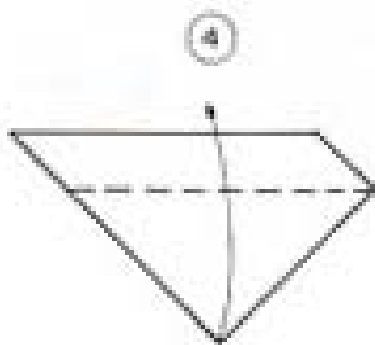

A BALEIA

Use um quadrado de papel espelho medindo 16 x 16 cm.

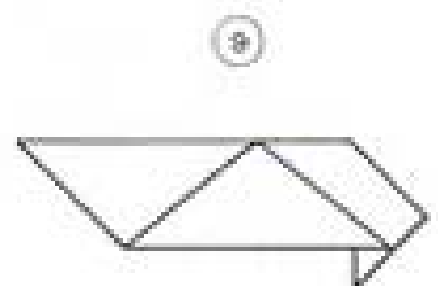

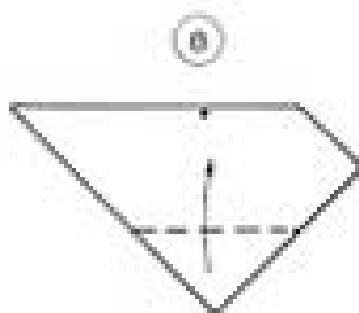

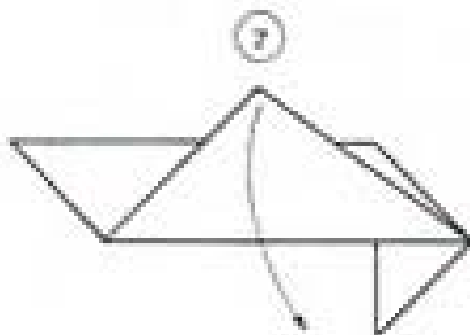

Vire a figura.

Abaxe a aba da frente.

Coloque a aba dentro do "bolsa".

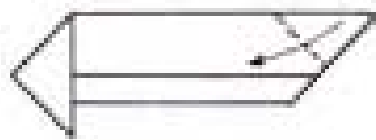

Abaxe a outra aba.

Dobre novamente a aba para cima até o ponto, não deixando-a sair da figura.

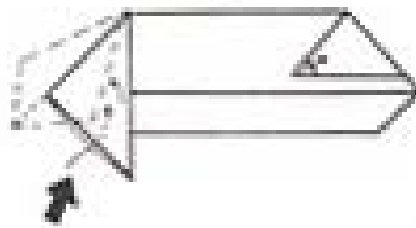

Vire a figura.

10

Dobre essa ponta para dentro.

11

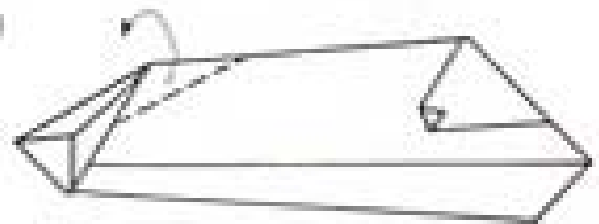

Abra um caput.

12

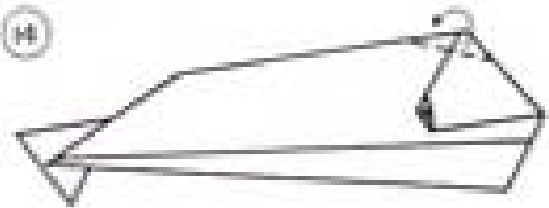

Dobre essa ponta para cima.

13

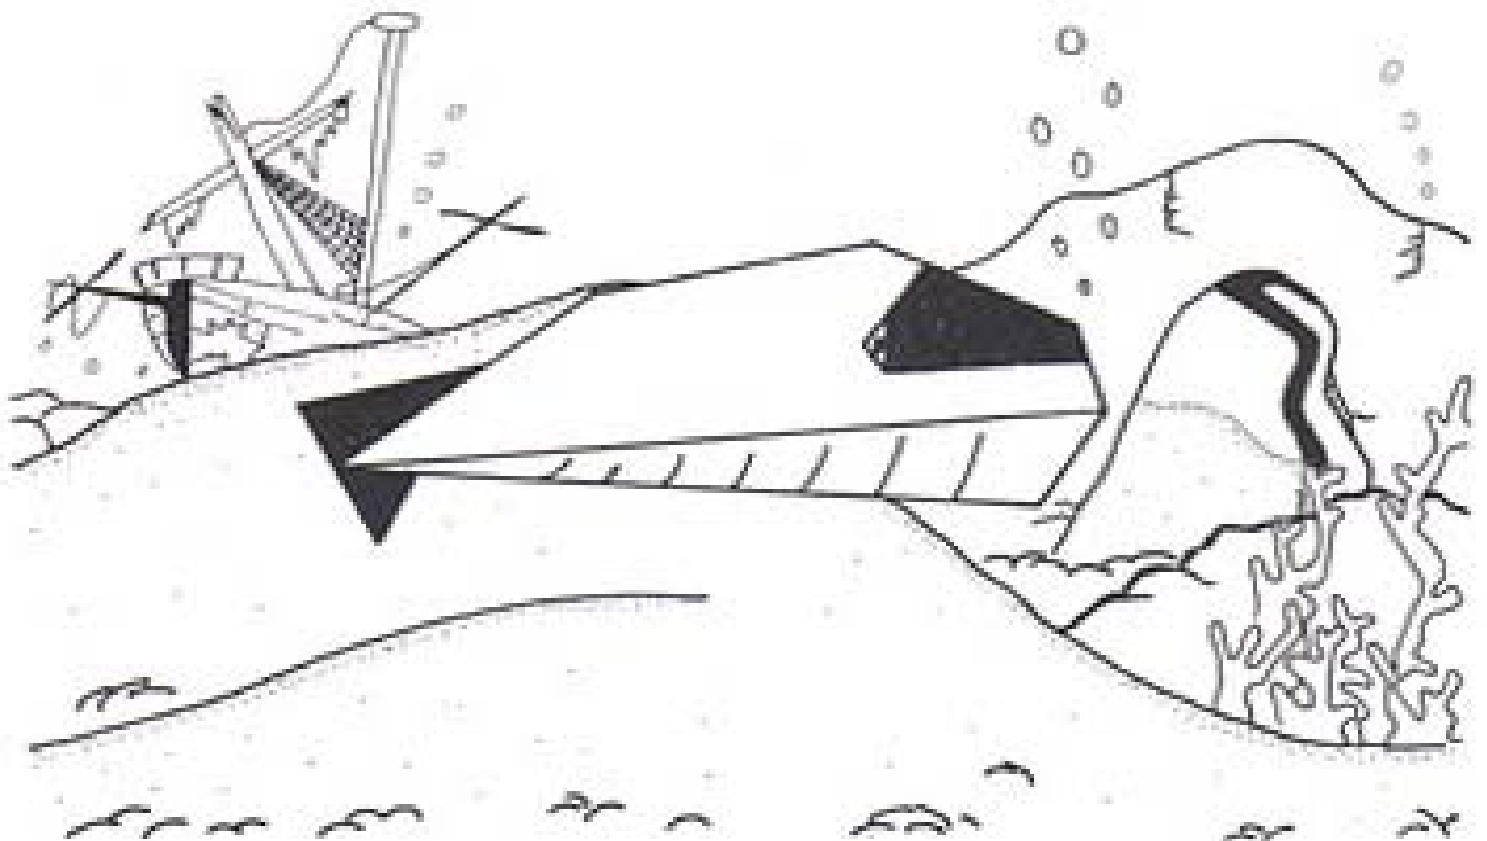

Dobre para trás para formar a cauda da baleia.

14

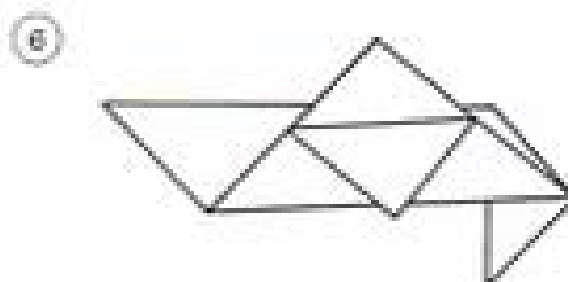

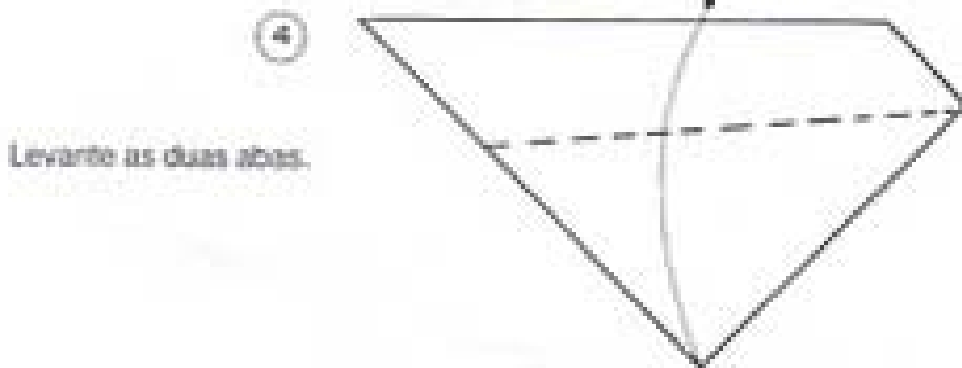

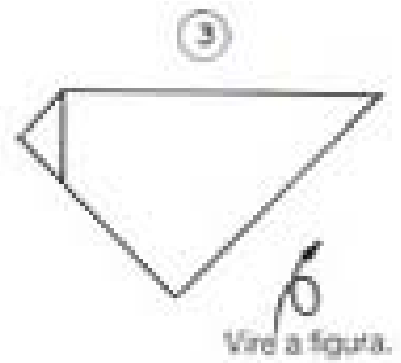

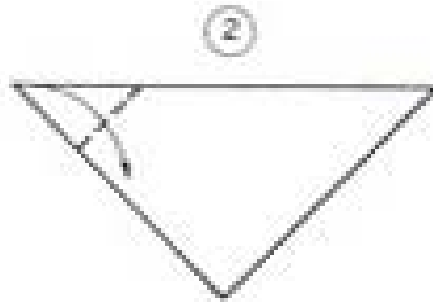

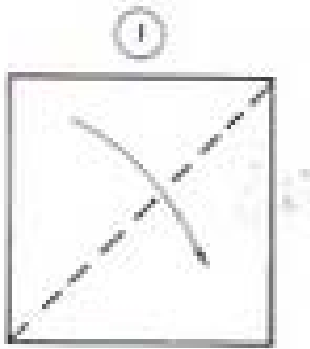

Dobre para trás para arredondar a cabeça e pintar o olho da baleia.

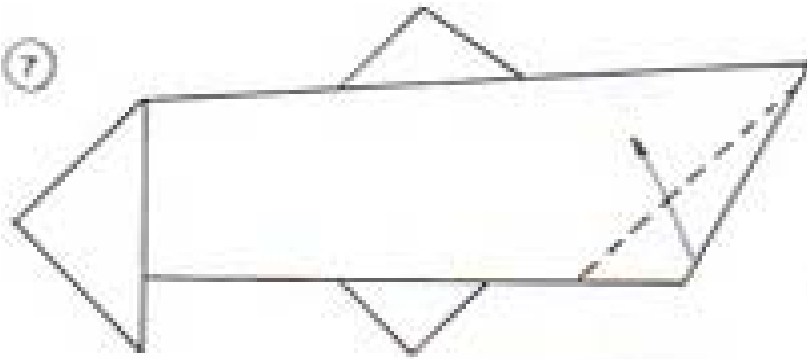

O TUBARÃO

Use um quadrado de papel espelho medindo 16 x 16 cm.

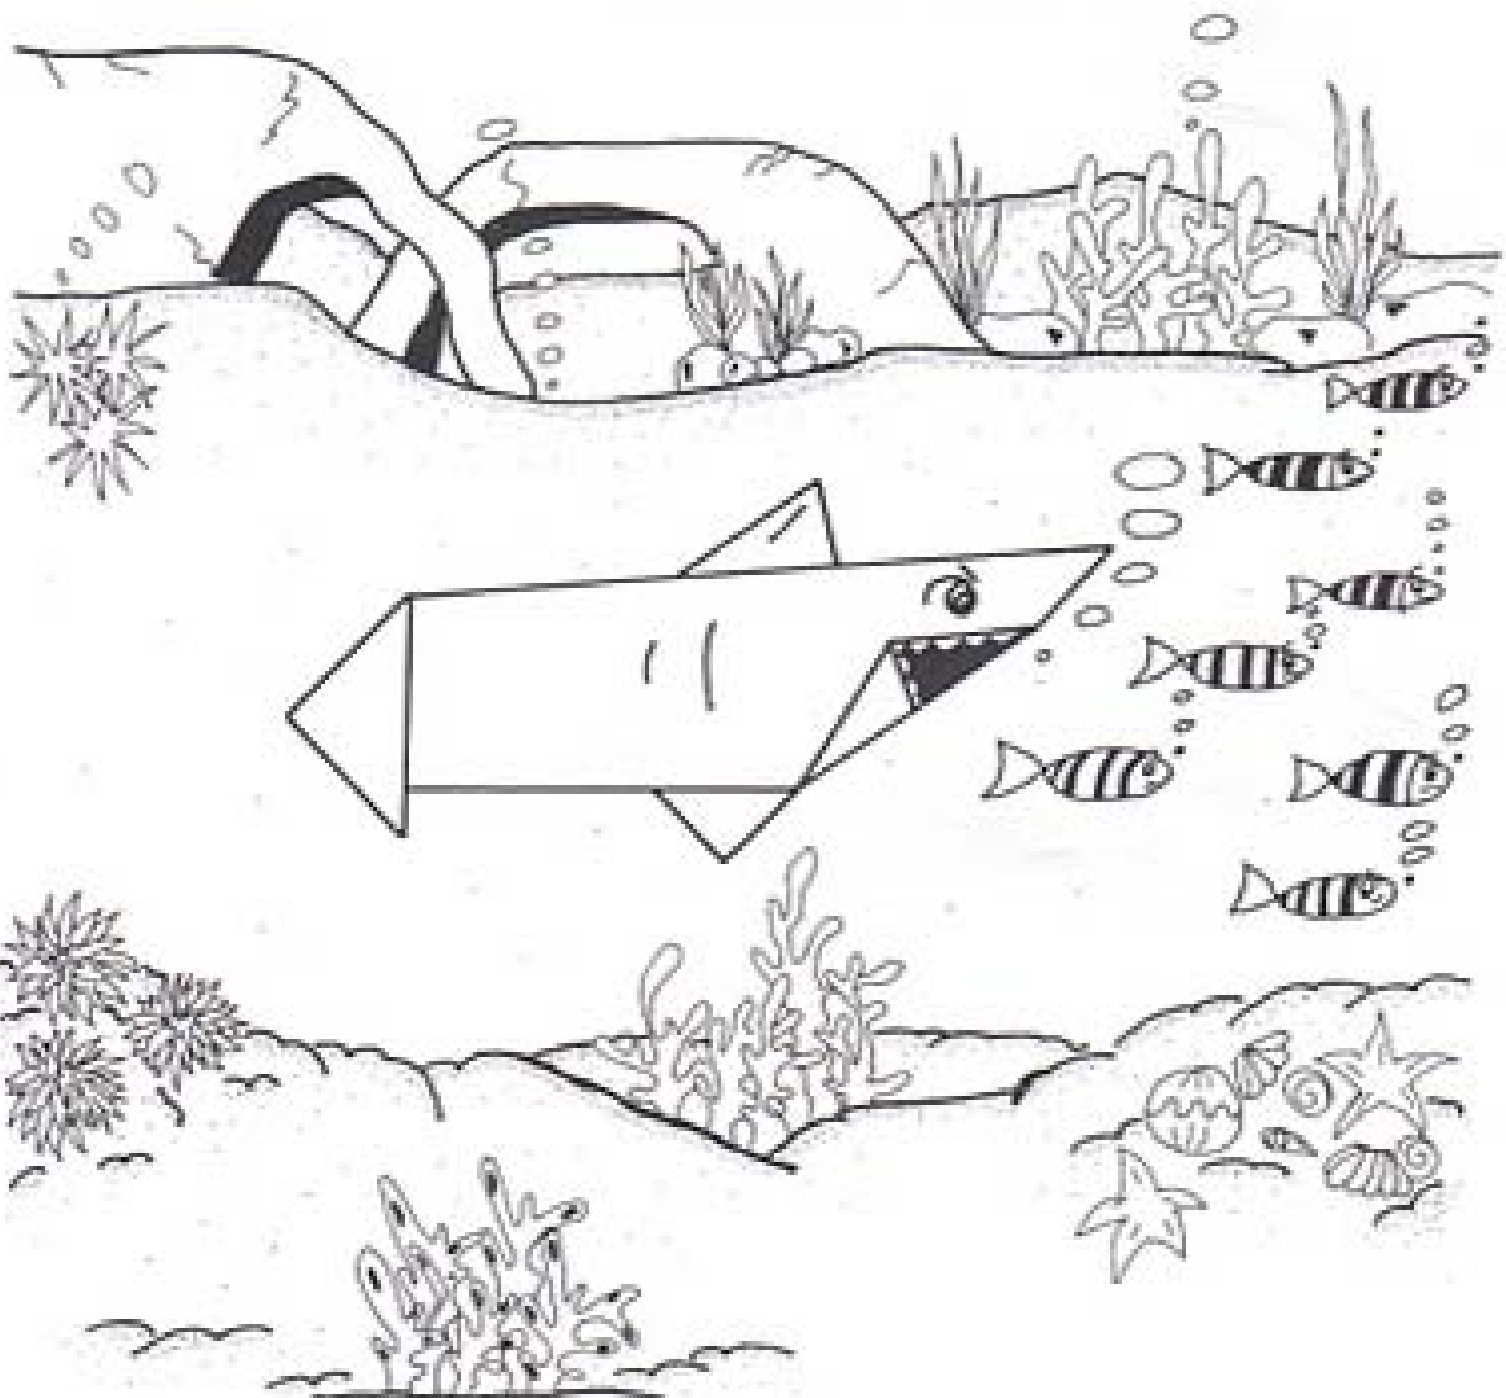

Vire a figura.

7

Levante essa porta.

Decore o tubarão.

A TARTARUGA

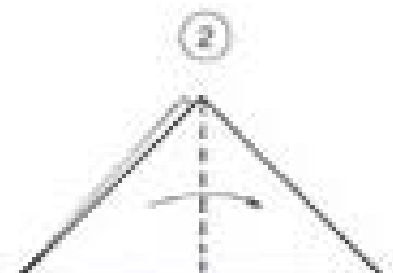

Use um quadrado de papel espelho medindo 10 x 10 cm para o corpo e um retângulo de papel estampado para o casco.

Transfira o molde do casco para o papel estampado e recorte.

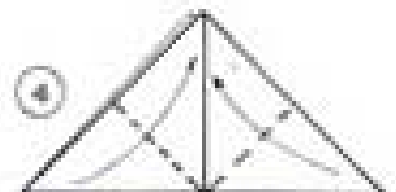

MOLDE DO CASCO

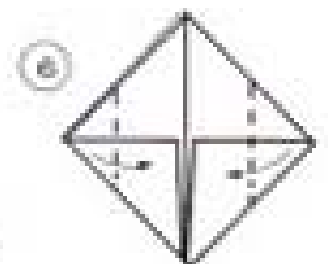

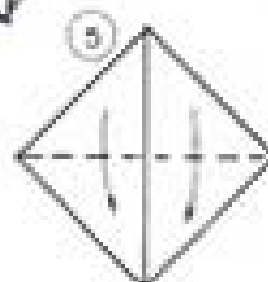

Peguei o meu chapéu, coloquei-o na cabeça e fui passear.

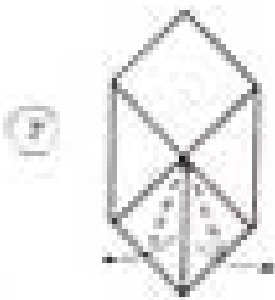

Encontrei uma borboleta que pousou no meu chapéu. Levantei os braços para espantá-la.

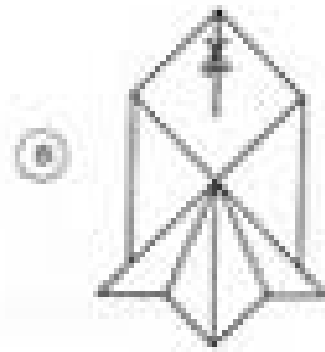

Abaixei as mãos e dei um abraço na borboleta.

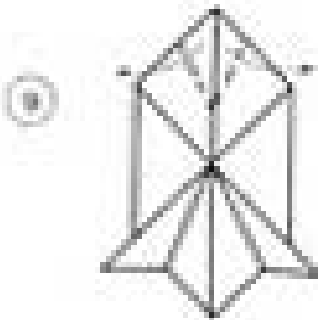

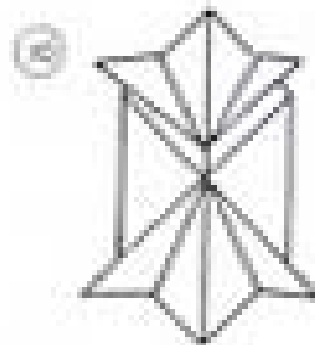

Dobre as duas abas para fora.

Corte somente a folha de cima até o meio.

Dobre as duas abas para fora.

Vire a figura e cole o casco por cima.

Preze os olhos e decore o casco da tartaruga.
